IDENTITY MANAGEMENT (IDM)

IDM refers to a framework of policies and technologies that ensure that the proper people in an enterprise have the appropriate access to technology resources. Identity and access management systems not only identify, authenticate and authorize individuals who will be utilizing IT resources, but also the hardware and applications employees need to access.

TAX & CUSTOMS

Revenue authorities require capabilities that enable them to generate revenue, plug leakages in revenue collection, adapt to mandated legislative changes in a timely fashion and apply proactive actions that reduce non-compliance, all while maintaining a high level of service. Tax and Customs solutions can be leveraged to provide better service to the taxpayer and provide better information to the department to ensure compliance, streamline operations and increase revenue collection.

TECHNO BRAIN

Empowering Lives

"The Uganda Local Government Revenue Management project is not only the most successful project in Africa but one of the most-successful in the world, that the World Bank has been involved in"

Parminder Brar
World Bank Lead Financial Management Specialist, EA

"Techno Brain did a very good job because we were able to work closely to make sure they deliver what we want. It has been one of the best contracts that we have managed"

Samuel Amule
*Commissioner in Charge of District Inspection
Local Government of Uganda*

▶ EMPOWERING LIVES

THE DIGITAL WAY

"We are satisfied with Techno Brain's technical expertise and their commitment to adhere to high standards and ability to train and provide support to our staff... After the project has gone live the revenue collection has gone up, financial reporting has tremendously improved giving TANAPA a complete view of the financials"

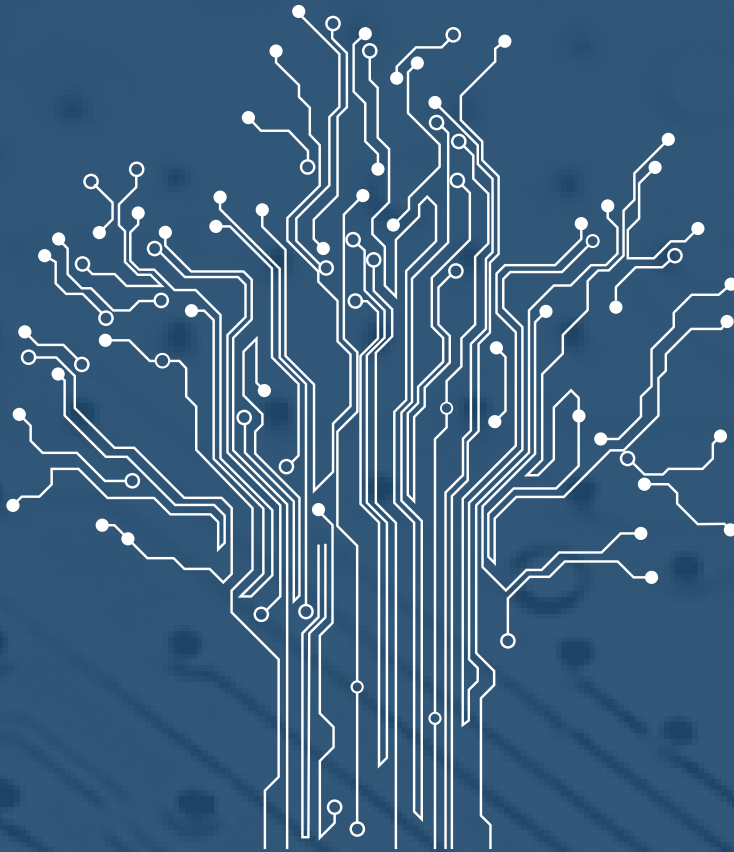

Wana Moses
Head of ICT, Tanzania National Parks

"Since inception of the project in August 2008, Techno Brain has been committed to its work and has shown high level of integrity and project management.... the methodology employed by Techno Brain of close involvement with client at every stage has proved instrumental for quality control and assurance of success outlook of final product"

Wezi Mjojo
Executive Secretary, Local Government Malawi
